

## SmartBOX™ FEATURES

- Completely automatic and hands-free pump protection
- Bridges the gap between 24 volt lawn controllers and 110/220V pump motors
- Serves as a pump start relay plus offers pump shut-down protection if source water is not available
- One model works for all pumps from 3/4 HP to 7-1/2 HP\*
- Color coded wiring for easy installation
- Optional high temperature protection— protects pipe workings and pump in “dead-head” situations. Activates shut-down process at 105 degrees
- Available with thermal overload protection for pumps of 3 HP and over
- Automatically resets pressure switch at each cycle
- Switches lawn controller to a domestic water alternative if the pump’s primary source water is not available\*\*

\* National Electrical Code (NEC) states all motors will be thermally protected from excessive “amperage draw.” Most motors under 2 hp are supplied with thermal protection from the motor manufacturer. For motors over 2 hp, Code-Compliant SmartBOX™ is recommended.

\*\* Note — check with your local health dept. for regulations & requirements for backflow prevention
